- A **sustainable** sauna thanks to **Thermowood®** technology
- A **panoramic view** to enjoy the landscape in complete privacy
- A **contemporary & elegant** design
- Made in **Europe**
- **Wood stove** compatible

THERMOWOOD®

Unparalleled quality of wood,
durable and aesthetic

Increased durability: Wood becomes more resistant to fungi and insects.

Dimensional stability: Reduces variations due to humidity.

Ecological: No added chemicals, wood from certified forests, 100% recyclable.

Ease of treatment: Requires no surface treatment, whatever the climate. Left untreated, it gradually develops a beautiful silver color.
